The “church” is God’s peace-building project, in which strangers and enemies are brought together in the unity of the Spirit, given birth together in the body of Christ. Thus “deepening our walk with each other” will test us to the very core and limit of our covenant we call “church.” It may not always be fun, but it promises the joy of participation in the great peace-building enterprise of God. In our reflections we will be guided and prodded by the Great Pastor himself as represented by Matthew and Ephesians.
